

B+T GROUP OVERVIEW

GROWTH TO MEET DEMAND

B+T Group is a wireless engineering, site acquisition and construction services firm that leverages its proprietary Site360 technology to help customers shorten on-air time and save money. Site360 uses photogrammetry and 3D imagery to provide the most accurate asset documentation and measurement for state-of-the-art site inspection.

In business since 2000, B+T Group leads the industry in providing turnkey solutions for all our clients; we self-perform all services offered and adapt what we provide to what customers need, making their challenges our opportunities.

READY TO SERVE YOU ANYWHERE

B+T Group is licensed to provide engineering services in all 50 states, supported by more than 200 employees working in more than a dozen cities and one international office in Brahmavar, India.
